Then visit the Living Water Wayside Chapel, an interesting sight in the town of Niagara-on-the-Lake. It was built in 1964 by the Christian Reformed Church. It is the smallest church in Canada and is also claimed by some to be the smallest in the world. No bigger than a one-car garage, it has become a destination for visitors to stop for photographs and prayers.

Here you will have time for photos of the three waterfalls at the southern end of Niagara Gorge, spanning the border between the province of Ontario in Canada and the state of New York in the United States.

Next, take a Journey Behind the Falls. To stand at the heart of Niagara, you'll first need to descend 125 feet and explore 130-year-old tunnels through the bedrock, but you'll feel the thunderous vibration of the Horseshoe Falls long before you see them. The observation deck at the foot of this 13-story-tall wonder will leave you breathless (and maybe a little bit wet), but don't forget the viewing portals cut straight through the rock, offering a once-in-a-lifetime view of one-fifth of the world's fresh water crashing down in front of you.

Then enjoy the Voyage to the Falls boat tour. Enjoy stunning views of the Niagara Gorge, American Falls, and Bridal Veil Falls, and come face-to-face with the famous Canadian Horseshoe Falls. Feel the thundering roar, awesome power, and amazing mist (a protective souvenir mist poncho is provided) that come along with these natural wonders.

Following the boat tour, stop at the Secret Garden Restaurant & Gift Shop, Niagara's best kept secret. The dining room is literally embraced by the manicured, floral splendor of Niagara Parks' luxuriant Oakes Garden Theatre and provides breathtaking views of the American Falls. Lunch will be on your own here today.

Bordered by ornamental iron gates and Queenston limestone, Oakes Garden Theatre provides a spectacular entranceway to Queen Victoria Park at the foot of Clifton Hill.

Today also features a visit to the Niagara Parks Power Station, a revived, former hydroelectric plant that now serves as a historic landmark and tourist attraction. Explore the original generator floor, take a glass-lined elevator down into a historic underground tunnel, and enjoy the
